8 ATENEO L.J. 192 (1958)

LUIS B. REYES, *THE REVISED PENAL CODE* (1958). The latest edition is divided into two books. Both books have been improved to render the discussions on the subject matter more comprehensive in order to meet the demands particularly of law students taking the bar examinations. In his discussion, the Author provides the elements of each crime, and proceeds by giving a comparison of both new and old jurisprudence on the matter. Hence, once again, this becomes a recommended book for legal scholars.
