

## Book Note

11 ATENEO L.J. 405 (1962)

2 *EDGARDO L. PARAS, CIVIL CODE OF THE PHILIPPINES ANNOTATED*  
(1961).

The book is the second in a book of five volumes. It treats of the subject matter in outline form, using a method which first cites the law, followed by the Author's comments and ends with salient problems and the author's solutions to them. It also contains previous bar examination questions to help the student cope with the examination. In light of this, the book is again recommended for students who would be studying the Civil Code.
